DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5,7-9 and 18-24 are allowed.

The following is an examiner's statement of reasons for allowance: Prior art shows, a vibration member formed by an elastic member having an electro-mechanical energy conversion element fixed thereto, and a through-hole extending through a central portion; a support member fixed to the vibration member and rotary member being in press contact with the vibration member and having a through-hole extending through the central portion thereto output shaft extending through the through-hole of the rotary member rotatable with the rotary member and the output shaft supporting the vibration member within the through-hole of the vibration member and case packaging.

However, Prior art fails to show a vibration wave driving apparatus having a plurality of bearings provided of in the case wherein in a plurality of bearings rotatably supporting the output shaft provides a bearing surface that locates a radial position of the vibration member at an axial position within the through-hole of the vibration member corresponding to a node of a vibration generated in the vibration member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
